

Internship Certificate

December 22, 2020

To Whom It May Concern,

This is to confirm that Mr. Hadi Sharif Hajjaj Abdelmajid has completed an internship at CLOUDGATE CONSULTING. Mr. Abdelmajid worked as a software developer; he worked closely with platform architects, learned and practiced the design and implementation of applications in Network Management and Security, and applied the learned skills on an ongoing project. His responsibilities included requirements gathering, analysis, design, and implementation of IT focused features in network security, translation of security standards into automated security rules, and implementation of communication adapters for various IT Assets.

His internship was mainly divided into three phases. During the first two weeks, he conducted different courses to learn Git & Python. For the following one and a half months, he worked on designing and creating user interface objects and icons. Finally, he was onboarded on the NCM on-going project where he successfully used his python skills to create regex functions and helped with validating real CIS rules.

During the course of his internship, Hadi proved himself to be dependable and hard working with solid problem solving and excellent technical skills. Hadi conducted himself professionally in terms of punctuality, serious and hard work, as well as during his interaction with his colleagues and supervisor.

The duration of the internship extended from July 20 until October 20, 2020.

Sincerely,

Jaafar Sharafeddine

Cloud Architect & Back-End Lead
